

JUSTIN TRAILLE

Cloud Software Engineer

 (404) 561-8686  jtraille07@gmail.com  ablackcloudapp.com  Atlanta, GA

PROFESSIONAL SUMMARY

Cloud Software Engineer with 5+ years of experience delivering enterprise software solutions using AWS, Python, Go, Terraform, and Kubernetes. AWS Certified Solutions Architect – Professional with hands-on experience in AWS Bedrock, AI agents, Retrieval-Augmented Generation (RAG), and cloud-native architectures.

PROFESSIONAL EXPERIENCE

Software Engineer Consultant

Atos (Cloudreach)

 11/2021 – 06/2026  Remote / Atlanta, GA

Delivering cloud engineering, platform engineering, IaC, Kubernetes, software development, database modernization, and AI-powered automation for enterprise clients including Blackstone, OCC, Capital One, and Mayo Clinic.

Atos Client: Capital One

11/2024 – 06/2025

- Led the first successful migration of Aurora PostgreSQL Global Clusters from a legacy IaC platform.
- Planned PostgreSQL major version upgrades, including multi-stage upgrade paths required by Aurora PostgreSQL.
- Coordinated production database migrations through formal change management.
- Validated Terraform configurations for multi-region Aurora PostgreSQL deployments.
- Audited Go dependencies, remediated technical debt, and developed Go unit tests.

Atos Client: The Options Clearing Corporation

06/2023 – 06/2024

- Developed Java Cucumber test frameworks and Python integration/unit tests.
- Managed monthly Kubernetes deployments using Rancher and Helm.
- Investigated production issues using Rancher, kubectl, Docker, and application logs.
- Supported Kubernetes platform initiatives including cluster provisioning, migrations, and modernization.

Atos Client: Blackstone

01/2022 – 04/2023

- Supported migration from Terraform Enterprise to HCP Terraform as part of the Platform Engineering team.
- Imported AWS infrastructure, users, teams, and platform resources into Terraform-managed IaC.
- Developed Python AWS Lambda functions integrating with the HCP Terraform API to automate workspace lifecycle operations through a React-based self-service platform.
- Provisioned AWS infrastructure across development, test, and production using standardized Terraform modules.
- Optimized legacy automation workflows from 15 minutes to 1 minute.

PROFESSIONAL EXPERIENCE

Atos Client: Mayo Clinic

KEY ACHIEVEMENTS

Streamlined Incident Response

Reduced investigation time from 60 to 15 minutes by implementing an AI-driven incident response platform.

Database Migration Success

Improved database reliability by leading Aurora PostgreSQL Global Cluster migrations and major version upgrades.

Enhanced Workflow Efficiency

Optimized legacy automation workflows from 15 minutes to 1 minute.

Boosted Platform Engagement

Increased usage through React UI enhancements and Azure authentication improvements.

TECHNICAL SKILLS

Languages

Python Go Java JavaScript GraphQL
SQL

Cloud

AWS Azure

Infrastructure

Terraform HCP Terraform Kubernetes Helm
Docker Linux CI/CD Git

AI/ML

AWS Bedrock LangChain LangGraph
AI Agents RAG ChromaDB
Titan Embeddings Semantic Search
Prompt Engineering Vector Databases
AI Evaluation

Databases

Aurora PostgreSQL PostgreSQL DynamoDB

CERTIFICATIONS

- AWS Certified Solutions Architect – Professional

03/2026 – 05/2026

- Developed React application enhancements for a healthcare platform.
- Implemented Azure App Registration authentication.
- Worked with BigQuery, Pub/Sub, and Artifact Registry.
- Resolved Azure DevOps CI/CD pipeline issues and remediated security vulnerabilities.
- Leveraged Cursor AI to accelerate React development while maintaining code quality.

Internal Innovation Initiative — AI Driven Incident Response Platform

- Collaborated within a three-person team to build an AI-driven incident response platform using AWS Bedrock, Lambda, Step Functions, EventBridge, DynamoDB, Slack, CloudWatch, and AWS DevOps Agent capabilities for root cause analysis.
- Automated incident investigation workflows and generated AI-powered summaries, remediation recommendations, rollback plans, and validation procedures.
- Reduced incident investigation effort from over 60 minutes to approximately 15 minutes.

AI & CLOUD PROJECTS

AI Agent-Powered RAG Platform

github.com/TheTraille18/jet_rag_ai_project

- Designed and developed an AI agent-powered RAG application using Python, AWS Bedrock, LangChain, LangGraph, ChromaDB, and Amazon Titan Embeddings.
- Built a document ingestion pipeline to process PDFs, generate semantic embeddings, and store vectors in ChromaDB.
- Integrated Amazon Bedrock foundation models for context-aware responses using semantic search and grounded LLM workflows.

CareerPilot AI

- Built an AI-powered career optimization platform that tailors resumes and cover letters to job descriptions while preserving DOCX formatting.
- Implemented a RAG pipeline with Python, FastAPI, AWS Bedrock, LangChain, ChromaDB, and Amazon Titan Embeddings.
- Developed REST APIs for resume ingestion, job analysis, semantic retrieval, resume tailoring, cover letter generation, and AI evaluation.
- Implemented structured resume parsing, JSON knowledge schemas, and document-aware editing for ATS-friendly updates without fabricated experience.

KubeSentry AI (In Progress)

github.com/TheTraille18/kubeSentryAI

- Developing an AI-powered Kubernetes troubleshooting platform using Go, Kubernetes (client-go), AWS Bedrock, and RAG.
- Designing an agent-based architecture with shared state, planner logic, and modular workflow nodes to automate incident investigations.
- Building a modular AI agent framework for Kubernetes diagnostics and intelligent root cause analysis.

PREVIOUS EXPERIENCE

Kapsch TrafficCom (2015–2021) — Staff System Engineer developing Java applications and automation solutions for intelligent transportation systems.

Logical Systems Inc. (2012–2015) — Control System Engineer developing industrial automation and control system solutions.

- AWS Certified Developer – Associate
- AWS Certified SysOps Administrator – Associate
- AWS Certified Cloud Practitioner
- AWS Certified AI Practitioner
- HashiCorp Terraform Associate
- Microsoft Azure Fundamentals (AZ-900)

EDUCATION

Bachelor of Science in Mechatronics Engineering

Southern Polytechnic State University
