

Subject: Re: Latest delivery QA review

Hi,

Thank you for raising this - we take the feedback seriously.

We've reviewed the delivery and agree the truthfulness labels were too aggressive on some items. Going forward, we'll apply a clearer bar (flag inaccuracies only for material factual errors), require a second-pass QA check on any "Contains Inaccuracy" rating, and escalate disputed items before delivery.

You will not be charged for this project.

Please let us know if you'd like us to resubmit corrected labels for this set.

Thanks,

Justin Traille
